TOPICS OF THE DAY.

If any person in this community is credulous enough to believe that the police will ferret out and arrest the assailants of Mr. Godfrey, he should be sent to an institution for the treatment of the feeble minded. The "inner circle" would be up in arms at the prospect of such an exposure.

Speaking of the relative merits of port physicians the other day, during which the present physician was handled without gloves, a gentleman remarked that the late Dr. Trousseau was the right man in the right place, as port physician under the monarchy; that while he was possibly not so religious as the present incumbent, he loved his fellow man too well to be negligent in his official duties.

President Dole has missed a great opportunity. When he heard of the outrage perpetrated on the person of Mr. Godfrey, he should have declared martial law; set Inquisitor-in-Chief Kinney and his staff at work with the dark cell and other methods invoked in January last; sent a steamer to Hilo for the thing called a "holy terror;" arrested every man in government employ and passed him over to the "holy terror" and Inquisitor-in-Chief, and our word for it the cowardly assailants of Mr. Godfrey would have been discovered ere this.

The Advertiser publishes a most elaborate letter from the medical members of the Board of Health to President W. O. Smith, and it invites the people on the other islands and here, and especially the physicians, to read it, digest it, and agree with the results arrived at by the learned trio in regard to the length of quarantine in a cholera epidemic. The physicians on Kauai, who according to a correspondent to the Advertiser are "second to none," disagree with the medical trio of the Board of Health. The physicians on Maui and Hawaii follow suit, and finally the physicians won't even notice the said learned triumvirate. The Advertiser's "ukase," "All we can do is to stand on the best experience of the world, and the Board of Health knows just what that experience is," sounds very well, but the fact remains, as we so often have reiterated, that neither the medical men of the country or the intelligent public believe that the three medical members of the Board know anything about the "experience of the world," or anything else better than they do. And for that reason the people on the other islands and in Oahu put their trust in their own sense and advisers, and not in the Board of Health "medicine men."

To close them out Shirt Waists, formerly selling at \$1.50 each, have been reduced to \$1; and Pith Hats, which were selling at \$2, from this on will be sold at \$1 each. Call early before the supply is exhausted. A. Barnes, New Republic Building, King street.
